

SAMPLE OF CARS IN EACH CATEGORY WITH THEIR LUGGAGE CAPACITY

When choosing a car rental for driving in Italy, it is important to consider not only the number of people that you will be transporting, but their luggage as well. The trunk will most likely be limited to one or two suitcases. While we recommend you keep your car as small as possible, you may have to keep a seat or two for the luggage that cannot make it into the trunk. Below you will find a sample of a car in each category along with the trunk capacity.

Economy
